

NGO QUANG PHUC

Frontend Developer

+84962447792 • ngophuc2911@gmail.com • [portfolio](#) • District 12, Ho Chi Minh City

Summary

Frontend/Fullstack Developer focused on web performance and clean UI/UX. Hands-on experience with the React ecosystem, real-time features, and scalable backend logic. Strong team player with good communication skills, looking to build impactful applications and grow within a collaborative technical environment

Education

Industrial University of Ho Chi Minh City
Information Technology

Ho Chi Minh City, Vietnam
01/2021 - 04/2026

Experience

Digitech Solutions

Intern Frontend Developer

06/2025 - 10/2025

- Developed and maintained React and Next.js interfaces, shipping new product pages and UI updates
- Fixed UI issues, improved responsive layouts, and helped ensure cross-browser compatibility
- Integrated and tested REST APIs with guidance from senior developers
- Collaborated with the team using Git and GitFlow, joining daily standups and code reviews
- Worked in an Agile Scrum environment and contributed to real production workflows

Projects

Real-time Chat Application

12/2024 - 05/2025

A cross-platform real-time chat application inspired by Zalo, featuring core messaging functionalities for both web and mobile platforms.

- Designed and developed responsive user interfaces for chat, conversation list, and contact management across web and mobile platforms
- Integrated Socket.IO for real-time messaging with optimized low-latency connections
- Implemented Context API for efficient state management and smooth user experience
- Ensured cross-device compatibility and responsive design principles

MegaTrip – Travel Booking Platform

08/2025 - 12/2025

An all-in-one travel booking platform supporting Flights, Bus Trips, and Tour Packages, including a customer-facing web application and an admin management dashboard.

- Developed modern, SEO-friendly web interfaces using Next.js App Router and reusable component architecture
- Converted Figma designs into clean, responsive, and accessible UI components
- Built complete booking flows with form validation, error handling, and API integration
- Developed Admin Dashboard with full CRUD features for services, orders, users, and content (CMS)
- Integrated AI Chatbot to support customer inquiries and improve user experience
